Victim Notification Information

Write down the following information and
keep in a safe place:

Offender name

Offender number

Case/Cause number

Your 4-digit PIN code

Do not depend solely on this service
for your protection. If you feel that
you may be at risk, take precautions
as if the offender has already been
released.

Facts About Victim Notification

Automated Victim Information & Notification

Indiana SAVIN

- All telephone and email registrations through Indiana SAVIN are kept completely confidential.
- If you are not home, the service will leave a message on an answering machine. If there is no answer, the service will keep calling back until you enter your PIN code or until 48 hours have passed.
- Please leave a direct number where you can easily be reached. Do not leave a phone number with SAVIN that rings to a switchboard.
- Do not depend only on this service or any other single program for your protection. Make this service part of your safety plan.
- You can leave more than one phone number with this service.
- If you want to change your phone number, PIN, or email address, you MUST update your Indiana SAVIN registration by calling 1-866-959-VINE. If you are updating your email address, press zero to speak with an operator.
- You can also register for notification by going to www.vinelink.com.

What is the Indiana SAVIN program?

Indiana SAVIN stands for Statewide Automated Victim Information & Notification. The Indiana SAVIN program is a free, automated hotline that provides crime victims with vital information and notification 24 hours a day, 365 days a year. This service will allow you to obtain offender information and to register for notification of a change in offender status, such as offender release.

What do I need to do?

1. Call 1-866-959-VINE from a touch-tone phone and follow the directions.
2. If the offender is in custody, you can leave your phone number to be called when they are released. Enter the phone number where you want to be reached, including area code, followed by the pound (#) key.
3. When the service asks, make up and enter a four-digit Personal Identification Number (PIN code) that will be easy for you to remember. Write it on the back of this brochure or in a safe place. The service will ask for the PIN code when it calls you.
4. When the service calls, listen to the message. When asked, enter your PIN code, followed by the pound (#) key. Entering the PIN lets the service know that you got the call, and will stop the service from calling you again.
